

Regulations for donations

These regulations define how the mosparo Association handles donations.

Change history

Version	Date	Changes
1.0	January 29, 2024	Approval of the regulations for donations by the General Meeting.

I. General regulations

Article 1 **Applicability**

These regulations are a supplement to the statutes and govern the handling of donations by the mosparo Association.

II. Handling of donations

Article 2 **Definition of donations**

Donations are all contributions made voluntarily by a natural or legal person.

Membership fees or other non-voluntary contributions are not considered donations.

Article 3 **Types of donations**

Donations can be designated for a specific purpose or not.

Donations made for a specific purpose or project may only be used for this purpose or project.

Non-designated donations can be used for all purposes or projects of the mosparo Association.

Article 4 **Use of donations**

All donations without a purpose are used for further development of the software "mosparo" (for example, certification), operation of the infrastructure (for example, server for updates and deployment), and associated projects (for example, system integrations).

The costs of the mosparo Association are primarily financed by membership fees (for example, bank account costs). Only donations with a specific purpose may be used for the organization of the mosparo Association (purpose: "mosparo Association").

Article 5 **Donation purposes**

To prevent donations from influencing the development of mosparo, the Board of Directors defines the official donation purposes.

The mosparo Association may use donations made for non-official donation purposes for other purposes.

If a donation purpose has not been officially defined, the Board of Directors should be contacted before donating.

Article 6 **Material donations**

Material donations in the form of services or goods are also possible. However, the necessity of the donation should be discussed with the Executive Board before making the donation.

Article 7 Publishing donations

The mosparo Association is not obliged to publish donations and the origin of the donations.

Article 8 Rejecting donations

The mosparo Association has the right to refuse donations.

III. Concluding regulations

Article 9 Entry into force

These regulations for donations were approved at the General Meeting on January 29, 2024.
